WORK EXPERIENCE

Frontend Developer, Minwo - Apr/2021 - present - Remote, USA

Actively involved in building the video and live chat component of the company's web applications that allow customers to attend virtual meetings.

Creating, implementing and structuring web page design to enhance the user experience.

Building stable, maintainable and reusable codebases using React.

Collaborating with designers to ensure designs are efficient and technically sound.

Collaborated with the rest of the development team to build and launch a website which provides Community-as-a-Service for business owners/entrepreneurs. The website helps users to engage and connect within communities based on their business need whilst providing the users access to relevant resources and coaches to help improve their business productivity.

Graduate Intern (Frontend Developer) Softblue Nigeria -Jun/2021 -Oct/2021 -

Remote

Developed a new feature on a bi-weekly basis

Ensured the technical feasibility of UI/UX designs.

Ensured the validation of all user input before submitting to the backend

Optimized web application for maximum speed and scalability.
